

BASIC B.Sc.NURSING PROGRAMME

PRINCIPAL
GODAVARI COLLEGE OF NURSING
JALGAON

Godavari College of Nursing, Jalgaon

Bsc Nursing [2023-24]

Course Outcome

Year : First year - Semester -I

Subject : APPLIED ANATOMY (Theory | Regular)

Course In-charge : Jacinth Dhaya C.H., Vishakha Ganvir, MENAO DEVI KHURAIJAM, PRIYADARSHANI GANGADHAR MOON, PIYUSH DADARAO WAGH, SAGAR ANIL MASNE, MONALI MANOJ BARSAGADE, PRIYA VASANT MASURE, Samruddhi Awasare, Chinmaya Chaudhari, Abhijeet Rathod, Harshal Dole

Sr. No.	CO Id	Course Outcome
1	BSC N IS 102.1	Students will demonstrate a comprehensive understanding of anatomical terminology, including the relative anatomical positions and movements, enabling them to communicate effectively in the field of healthcare.
2	BSC N IS 102.2	Students will acquire in-depth knowledge of human tissue types, cell structure, and the classification of membranes and glands, facilitating their ability to understand and explain the structural organization of the human body.
3	BSC N IS 102.3	Students will develop a thorough understanding of the respiratory system's structure, its role in respiration, and the musculature involved, equipping them to assess and provide care in respiratory-related healthcare situations
4	BSC N IS 102.4	Students will gain a comprehensive knowledge of the circulatory and lymphatic systems, encompassing the structure of blood components, heart chambers, lymphatic tissue, and relevant vascular anatomy, enabling them to contribute effectively to patient care and nursing procedures
5	BSC N IS 102.5	Students will achieve proficiency in identifying and describing the structure and function of major endocrine glands, preparing them to comprehend and manage endocrine-related healthcare scenarios
6	BSC N IS 102.6	Students will attain a deep understanding of sensory organ structure and its applications in healthcare, empowering them to conduct sensory assessments and provide care based on sensory-related information
7	BSC N IS 102.7	Students will attain a comprehensive understanding of anatomical positions, bone and joint structure, and the associated musculature, enabling them to effectively communicate and apply this knowledge in the healthcare field
8	BSC N IS 102.8	Students will acquire a deep comprehension of the muscular system's structure and function, encompassing various muscle types and their roles in different body regions, facilitating their ability to apply this knowledge in nursing procedures and patient care
9	BSC N IS 102.9	Students will develop a thorough understanding of the renal system's structure, including the kidneys, bladder, and urethra, and comprehend the application and implications of this knowledge in nursing practice
10	BSC N IS 102.10	Students will gain a comprehensive understanding of the male and female reproductive system's structure, empowering them to comprehend and manage reproductive healthcare scenarios effectively

Sr. No.	CO Id	Course Outcome
11	BSC N IS 102.11	Students will achieve proficiency in describing the structure of the nervous system, encompassing the central, autonomic, and peripheral components, and apply this knowledge in clinical practice for effective patient assessment and care

Godavari College of Nursing, Jalgaon

Bsc Nursing [2023-24]

Course Outcome

Year : First year - Semester -I

Subject : NURSING FOUNDATION - I (Theory | Regular)

Course Code : BSC N IS 106

Course In-charge : Jacinth Dhaya C.H., Vishakha Ganvir, PRIYADARSHANI GANGADHAR MOON, JAYSHRI JADHAV, SWETA Dahake, SWETA Dahake, REBECCA PHILIP LONDHE, REBECCA PHILIP LONDHE, PRASHIK BABURAO CHAVHAN, SUMIT SATISH NIRMAL, SWATI SHANTARAM GADEGONE, SWATI SHANTARAM GADEGONE, PRIYA DADARAO JADHAV, SMITA PRABHUDAS PANDEY, PRIYA VASANT MASURE, SHUBHANGI ISHWARDAS GAIKWAD, MAYURI MAHADEORAO AAGE, OMKAR MURUDKAR, EKATA AGRAWAL, NIKITA RAMTEKE, BHUMITA ZANZADE, KOMAL KALE, Abhijeet Rathod, Harshal Dole

Sl. No.	CO Id	Course Outcome
1	BSC N IS 106.1	Develop understanding about the concept of health, illness and scope of nursing within health care services.
2	BSC N IS 106.2	Apply values, code of ethics and professional conduct in professional life.
3	BSC N IS 106.3.	Apply the principles and methods of effective communication in establishing communication links with patients, families and other health team members.
4	BSC N IS 106.4	Develop skill in recording and reporting.
5	BSC N IS 106.5	Demonstrate competency in monitoring and documenting vital signs.
6	BSC N IS 106.6.	Describe the fundamental principles and techniques of infection control and biomedical waste management.
7	BSC N IS 106.7.	Identify and meet the comfort needs of the patients.
8	BSC N IS 106.10.	Perform first aid measures during emergencies.
9	BSC N IS 106.8.	Perform admission, transfer, and discharge of a patient under supervision applying the knowledge.
10	BSC N IS 106.9.	Demonstrate understanding and application of knowledge in caring for patients with restricted mobility.
11	BSC N IS 107.11.	Identify the educational needs of patients and demonstrate basic skills of patient education.

Bsc Nursing [2023-24]

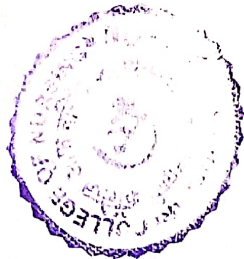

Course Outcome

Year : First year - Semester -I

Subject : COMMUNICATIVE ENGLISH(Theory | Regular)

Course In-charge : PRIYADARSHANI GANGADHAR MOON, SAVITRI RAMVILASH SINGH, MANJIRI RAJESH MADAVI, ROSHANI RAJKUMAR BHAGAT, SNEHA CHANDEKAR, Joy Jadhav, Abhijeet Rathod, Harshal Dole

Sr. No.	CO Id	Course Outcome
1	BSC N IS 101.1	Identify the significance of Communicative English for health care professionals
2	BSC N IS 101.2	Apply the concepts and principles of English Language use in professional development such as pronunciation, vocabulary, grammar, paraphrasing, voice modulation, Spelling ,pause and silence.
3	BSC N IS 101.3	Demonstrate attentive listening in different hypothetical situations
4	BSC N IS 101.4	Converse effectively ,appropriately and timely with in the given context and the individual or team they are communicating with either face to face or by other means.
5	BSC N IS 101.5	Read, interpret and comprehend content in text, flowsheet, framework, figures ,tables, reports ,anecdotes etc.
6	BSC N IS 101.6	Analyse the situation and apply critical thinking strategies.
7	BSC N IS 101.7	Enhance expressions through writing skills.
8	BSC N IS 101.8	Apply LSRW (Listening, Speaking, Reading and Writing) Skill in combination to learn, teach, educate and share information, ideas and results.

JALGAON

Godavari College of Nursing, Jalgaon
Bsc Nursing [2023-24]

Course Outcome

Year : First year - Semester -I

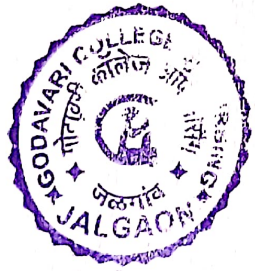

Subject : FIRST AID MODULE(Theory | Elective)

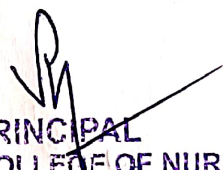

Course Code : 107

Course In-charge : PRIYADARSHANI GANGADHAR MOON, PRIYANKA DILIPRAO GAWAI, COLLET PHILIP

LONDHE, KOMAL KALE, Sachin Pawar, Harshal Dole, Narayani Kadam

Sr. No.	CO Id	Course Outcome
1.	107.1	Understanding Emergency Situations: Students should be able to identify and comprehend various emergency situations, including accidents, injuries, and medical crises.
	107.2	Knowledge of First Aid Techniques: Acquiring knowledge of basic first aid techniques such as CPR (Cardiopulmonary Resuscitation), wound care, bandaging, splinting, and controlling bleeding.
3	107.3	Recognition of Vital Signs: Being able to recognize and assess vital signs like pulse, respiration rate, blood pressure, and temperature in emergency situations.
4	107.4	Application of First Aid Principles: Applying theoretical knowledge practically by demonstrating appropriate first aid procedures in simulated scenarios.
5	107.5	Understanding Medical Terminology: Familiarity with medical terminology relevant to first aid situations to communicate effectively within a medical team.
6	107.6	Patient Communication and Support: Developing skills in effectively communicating with patients and providing emotional support during emergencies

Course Outcome

Year : First year - Semester -I

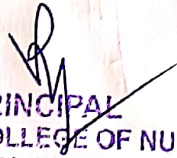

Subject : APPLIED SOCIOLOGY(Theory | Regular)

Course Code : BSC N IS 104

Course In-charge : Nirbhay Mohod, PRIYADARSHANI GANGADHAR MOON, RASHMI VISHWAS
TEMBHURNE, ASMITA RAJENDRA JUMDE, SHILPA BHIMARAO VAIRAGADE, MAYURI MAHADEORAO
AAGE, Samruddhi Awasare, SNEHA CHANDEKAR, Harshal Dole

Sr. No.	CO Id	Course Outcome
1	BSC N IS 104.1	Identify the scope and significance of sociology in nursing.
2	BSC N IS 104.2	Apply the knowledge of social structure and different culture in a society in identifying social needs of sick clients.
3	BSC N IS 104.3	Identify the impact of culture on health and illness
4	BSC N IS 104.4	Develop understanding about types of family, marriage and its legislation.
5	BSC N IS 104.5	Identify different type of caste, class, social change and its influence on health and health practices.
6	BSC N IS 104.6	Develop understanding about social organization and disorganization and social problem in India.
	BSC N IS 104.7	Integrate the knowledge of clinical sociology and its users in crisis intervention

Year : First year - Semester -I

Subject : APPLIED PSYCHOLOGY(Theory | Regular)

Course Code : BSC N IS 105

Course In-charge : Ashwini Vaidya, PRIYADARSHANI GANGADHAR MOON, HEMANGI HEMANT MURKUTE, SUMIT SATISH NIRMAL, SWATI SHANTARAM GADEGONE, SHILPA BHIMARAO VAIRAGADE, PUNAM MAROTRAO TODKAR, PRIYANKA GAJANAN GADEKAR, Payal Waghmare, SURAJ KHAWATE, BHUMITA ZANZADE, Chinmaya Chaudhari, Harshal Dole

Sr. No.	CO Id	Course Outcome
1	BSC N IS 105.1	Identify the importance of psychology in individual and professional life.
2	BSC N IS 105.2	Develop understanding of the biological and psychological basis of human behavior.
3	BSC N IS 105.3	Identify the role of nurse in promoting mental health and dealing with altered personality
4	BSC N IS 105.4	Perform the role of nurses applicable to the psychology of different age group.
5	BSC N IS 105.5	Identify the cognitive and affective needs of clients.
6	BSC N IS 105.6	Integrate the principles of motivation and emotion in performing the role of nurse in caring for emotionally sick client.
7	BSC N IS 105.7	Demonstrate basic understanding of psychological assessment and nurses role.
8	BSC N IS 105.8	Apply the knowledge of soft skill in workplace and society
9	BSC N IS 105.9	Apply the knowledge of self-empowerment in workplace, society, and personal life.

PRINCIPAL
GODAVARI COLLEGE OF NURSING
JALGAON

Godavari College of Nursing, Jalgaon

Bsc Nursing [2023-24]

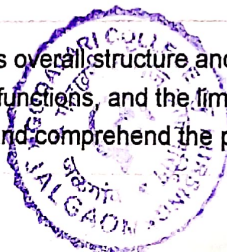

Course Outcome

Year : First year - Semester -I

Subject : APPLIED PHYSIOLOGY(Theory | Regular)

Course In-charge : MANORAMA KASHYAP, MENAO DEVI KHURAIJAM, NIMMI VARGHESE THAZHATHAN, PRIYADARSHANI GANGADHAR MOON, HEMANGI HEMANT MURKUTE, SUMAIYA SALIM SHAIKH, SAGAR ANIL MASNE, MONALI MANOJ BARSAGADE, SWATI SHANTARAM GADEGONE, PRIYANKA DILIPRAO GAWAI, PUNAM MAROTRAO TODKAR, SURAJ KHAWATE, Harshal Dole

Sr. No.	CO Id	Course Outcome
1	BSC N IS 103.1	Student will understand the fundamental principles of cell physiology, including transport mechanisms across the cell membrane, the distribution of body fluid compartments, major electrolytes, and the maintenance of homeostasis. Describe the cell cycle, tissue formation and repair, as well as the functions of membranes and glands.
2	BSC N IS 103.2	Student will gain a comprehensive understanding of the respiratory system, including its physiology, the mechanism of respiration, the role of muscles in respiration, pulmonary circulation, gas exchange in the lungs, and the regulation of respiration. Recognize the respiratory changes that occur during exercise.
3	BSC N IS 103.3	Student will comprehend the functions of the digestive system, the anatomy and physiology of its organs, and the processes involved in digestion and absorption of food. Understand the role of digestive secretions and movements of the alimentary tract.
4	BSC N IS 103.4	Student will learn about the functions of the circulatory system, including the heart's role in maintaining circulation, blood pressure, and the anatomy of coronary, pulmonary, and systemic circulation. Explore the regulation of heart rate and cardiovascular homeostasis during exercise and posture.
5	BSC N IS 103.5	Student will understand the composition and functions of blood, including blood cell formation, erythropoiesis, the roles of white blood cells and platelets, the clotting mechanism, blood groups, and the functions of the reticuloendothelial system and immunity.
6	BSC N IS 103.6	Student will understand the functions and hormones of endocrine glands and their alterations in disease.
7	BSC N IS 103.7	Student will comprehend the structure of sensory organs and the functions of vision, hearing, taste, and smell.
8	BSC N IS 103.8	Student will gain knowledge of the anatomy and physiology of bones, joints, muscles, and nerves, including their properties and functions.
9	BSC N IS 103.9	Student will explain the functions of the kidney in maintaining homeostasis, glomerular filtration rate, and the functions of the ureters, bladder, and urethra, including micturition and the regulation of renal function.
10	BSC N IS 1033.10	Student will describe the female and male reproductive systems, including the menstrual cycle, ovary functions, spermatogenesis, and hormone functions.
11	BSC N IS 103.11	Student will understand the nervous system's overall structure and functions, including the brain's physiology, nerve stimulus, reflexes, sensory and motor functions, and the limbic system. Recognize the functions of cranial nerves and the autonomic functions and comprehend the physiology of pain.

Subject : APPLIED NUTRITION AND DIETETICS(Theory | Regular)

Course In-charge : Jacinth Dhaya C.H., Ashwini Vaidya, MENAO DEVI KHURAIJAM, PIYUSH DADARAO
WAGH, MONALI MANOJ BARSAGADE, Shruti Sapate, Harshal Dole

Sr. No.	CO Id	Course Outcome
1	BSC N IIS 112 1	Students will be able to define nutrition and its relationship to health.
	BSC N IIS 112 2	Students will be able to describe the classification, functions, sources, and recommended daily allowances (RDA) of carbohydrates.
3	BSC N IIS 112 3	Students will be able to describe the classification, functions, sources, and RDA of proteins.
4	BSC N IIS 112 4	Students will be able to describe the classification, functions, sources, and RDA of fats.
5	BSC N IIS 112 5	Students will be able to classify vitamins into fat-soluble and water-soluble categories and describe their functions, dietary sources, and RDA.
6	BSC N IIS 112 6	Students will be able to classify minerals into major minerals and trace elements and describe their functions, dietary sources, and RDA.
7	BSC N IIS 112 7	Students will be able to plan balanced diets for different age groups, pregnancy, and lactation.
8	BSC N IIS 112 8	Students will be able to identify common nutritional deficiency disorders and describe the nurse's role in assessment, management, and prevention.
9	BSC N IIS 112 9	Students will be able to describe therapeutic diets, their objectives, principles, and modifications for various diseases.
10	BSC N IIS 112 10	Students will be able to explain cooking methods, preservation techniques, and measures to prevent the loss of nutrients during food preparation.
11	BSC N IIS 112 11	Students will be able to explain the objectives and methods of nutritional assessment and describe principles and methods of nutrition education.
12	BSC N IIS 112 12	Students will be able to understand nutritional problems in India, national nutritional policies, programs, and the nurse's role in these programs.
13	BSC N IIS 112 13	Students will be able to discuss the importance of food hygiene and safety, explain relevant acts and regulatory measures, and understand essential steps in safe cooking practices and the role of food handlers.

Sr. No.	CO Id	Course Outcome
14	BSC N IIS 113.14	Recognize the special needs and rights of vulnerable populations, including children, the elderly, individuals with disabilities, and marginalized communities.
15	BSC N IIS 113.15	Accurate and timely documentation of patient care in accordance with healthcare regulations.

Course In-charge : Jacinth Dhaya C.H., Nirbhay Mohod, MANORAMA KASHYAP, PRIYADARSHANI GANGADHAR MOON, HEMANGI HEMANT MURKUTE, PRASHIK BABURAO CHAVHAN, RASHMI VISHWAS TEMBHURNE, SUMIT SATISH NIRMAL, SWATI SHANTARAM GADEGONE, SHILPA BHIMARAO VAIRAGADE, PUNAM MAROTRAO TODKAR, SURAJ KHAWATE, Mansi Dhoble, Harshal Dole, KIRTI DHALE

Sr. No.	CO Id	Course Outcome
1	BSC N IIS 113.1	Understanding of the principles and concepts of nursing, including its history, ethics, and role within the healthcare system
2	BSC N IIS 113.2	Demonstrate competence in basic nursing skills such as vital signs assessment, wound care, medication administration, and assisting with activities of daily living.
3	BSC N IIS 113.3	Understanding and implementing infection control practices and maintaining asepsis in clinical settings.
4	BSC N IIS 113.4	Developing the ability to assess and document a patient's physical, psychological, and social condition.
5	BSC N IIS 113.5	Ensuring patient safety and providing high-quality care, including safe patient handling and medication safety.
6	BSC N IIS 113.6	Developing effective communication skills, maintaining patient confidentiality, and demonstrating professionalism in the healthcare setting.
7	BSC N IIS 113.7	Understanding the ethical and legal aspects of nursing, including informed consent, confidentiality, and patient rights.
8	BSC N IIS 113.8	Developing cultural competence and sensitivity to provide care that respects the diversity of patients and their beliefs.
9	BSC N IIS 113.9	Developing critical thinking skills to make sound clinical judgments and prioritize patient care.
10	BSC N IIS 113.10	Educating patients and families about health promotion, disease prevention, and self-care.
11	BSC N IIS 113.11	Exhibit professionalism, responsibility, and accountability in nursing practice, including adherence to professional standards and ethical conduct.
12	BSC N IIS 113.12	Incorporate current research and evidence-based practices into nursing care to achieve optimal patient outcomes.
13	BSC N IIS 113.13	Develop basic leadership skills, such as effective communication, problem solving, and decision-making, which are crucial for coordinating and managing patient care.

Sr. No.	CO Id	Course Outcome
1	CO1	Develop a basic understanding of computer application in patient care and nursing practice.
2	CO2	Apply the knowledge of computer and information technology in patient care and nursing education, practice, administration and research
3	CO3	Describe the principles of health informatics and its use in developing efficient healthcare.
4	CO4	Demonstrate the use of information system in healthcare for patient care and utilization of nursing data
5	CO5	Demonstrate the knowledge of using Electronic Health Records (EHR) system in clinical practice.
6	CO6	Apply the knowledge of interoperability standards in clinical setting
7	CO7	Apply the knowledge of information and communication technology in public health promotion.
8	CO8	Utilize the functionalities of Nursing Information System (NIS) system in nursing
9	CO9	Demonstrate the skills of using data in management of health care.
10	CO10	Apply the knowledge of the principles of digital ethical and legal issues in clinical practice.
11	CO11	Utilize evidence-based practices in informatics and technology for providing quality patient care
12	CO12	Update and utilize evidence-based practices in nursing education, administration, and practice.

Sr. No.	CO Id	Course Outcome
1	BSC N IIS 111 1	Students will be able to understand the regulation of blood glucose, including the pathophysiology of diabetes mellitus (type 1 and type 2), symptoms, complications, and management in brief.
2	BSC N IIS 111 2	Students will be able to describe the digestion, absorption, and metabolism of lipids and related disorders.
3	BSC N IIS 111 3	Students will be able to classify amino acids based on nutrition and metabolic rate with examples.
4	BSC N IIS 111 4	Students will be able to identify enzymes of diagnostic importance in various diseases such as liver diseases, myocardial infarction, muscle diseases, bone diseases, and prostate cancer.
5	BSC N IIS 111 5	Students will be able to explain the regulation of blood pH, including blood buffer, respiratory, and renal systems.
6	BSC N IIS 111 6	Students will be able to describe the heme degradation pathway and understand jaundice, its types, causes, and urine & blood investigations.
	BSC N IIS 111 7	Students will be able to understand biochemical parameters and normal values for renal, liver, and thyroid function tests.
	BSC N IIS 111 8	Students will be able to describe the structure and functions of immunoglobulins and understand investigations and interpretation using ELISA (Enzyme-Linked Immunosorbent Assay).

Course Outcome

Year : Second year - III Semester

Subject : APPLIED MICROBIOLOGY AND INFECTION CONTROL INCLUDING SAFETY(Theory | Regular)

Course In-charge : Jacinth Dhaya C.H., Vishakha Ganvir, MANORAMA KASHYAP, PRIYADARSHANI

GANGADHAR MOON, JAYSHRI JADHAV, RASHMI VISHWAS TEMBHURNE, SMITA PRABHUDAS PANDEY,

PRITI GAIKWAD, PUNAM MAROTRAO TODKAR, EKATA AGRAWAL, PRAJKTA GANVIR, ROHINI HARGE, MAYURI TIMANDE, VAISHNAVI SHAHANE, Harshal Dole

Sr. No.	CO Id	Course Outcome
1	BSC N IIIS 201.1	Understanding the basic of Microbiology and to develop a solid understanding of basic microbiology principles, including microbial structure, function, and classification, and their relevance to healthcare.
2	BSC N IIIS 201.2	Students will gain knowledge of infection control protocols, practices, and standards to prevent the spread of infections within healthcare settings.
3	BSC N IIIS 201.3	Students will understand the importance of proper hand hygiene and the correct use of PPE to reduce the risk of infection transmission.
4	BSC N IIIS 201.4	Students will be able to apply standard precautions consistently, including safe handling of sharps, proper disposal of infectious materials, and the use of appropriate barriers.
5	BSC N IIIS 201.5	Students will learn about sterilization and disinfection techniques and their application in healthcare settings to ensure the safety of patients and healthcare providers.
6	BSC N IIIS 201.6	Students will understand the various isolation procedures, including contact, droplet, and airborne precautions, and when to implement them based on different infectious diseases.
7	BSC N IIIS 201.7	Students will be able to identify risk factors for healthcare-associated infections and implement strategies to reduce their occurrence within healthcare facilities.
8	BSC N IIIS 201.8	Students will acquire the skills to safely handle needles and sharps, reducing the risk of needlestick injuries and infection transmission.
9	BSC N IIIS 201.9	Students will learn proper waste management practices, including the segregation, handling, and disposal of biomedical waste in accordance with regulations and safety guidelines.
10	BSC N III 201.10	Students will be aware of the ethical and legal aspects of infection control, including patient confidentiality and privacy, as well as reporting notifiable diseases.
