NEONATAL RESUSCITATION PROGRAM

FIRST GOLDEN MINUTE PROJECT

**Basic NRP Instructor Course
(Training of Trainers)**

30th June, 2024  **Dr. Ketkitai Patil Hall, DUPMC&H, Jalgaon**

- Organized By -

**DR. ULHAS PATIL MEDICAL COLLEGE & HOSPITAL
GODAVARI COLLEGE OF NURSING**

**Run by Godavari Foundation | Affiliated by MUHS Nashik
Accredited by NAAC**

As of 2024, the neonatal mortality rate (NMR) in India stands at approximately 18.1 deaths per 1,000 live births. This figure reflects ongoing efforts to reduce infant mortality, though challenges remain, particularly in rural areas and among economically disadvantaged populations. Neonatal resuscitation when implemented systematically by trained personnel can reduce significant number of neonatal deaths, so it is imperative to train health care personals. The Neonatal Resuscitation Program (NRP) Training of Trainers (TOT) Basic Instructor Course is designed to equip healthcare professionals with the knowledge and skills necessary to effectively teach neonatal resuscitation techniques. The course emphasizes the importance of rapid, accurate assessment and intervention in neonatal emergencies to improve outcomes for newborns.

Dr. Ulhas Patil Medical College and hospital & Godavari College of Nursing collaboration with Indian Academy of Pediatric (IAP) & NNF is organizing **Training of Trainers (TOT)** on “**Neonatal Resuscitation Program**” on 30th June 2024.

Theme: Neonatal Resuscitation Program

Date: 30th June, 2024

Time: 08:00 a.m. – 05:00 p.m.

Organized by : Dr. Ulhas Patil Medical College and hospital & Godavari College of Nursing collaboration with Indian Academy of Pediatric (IAP) & NNF

Coordinator : Dr. Priyadarshani Moon. (Assit. Professor, Godavari college of nursing, Jalgaon)

Programme Schedule :

08:00 am – 08:30 am	Breakfast & Registration	
08:30 am – 09:00 am	Inauguration	Welcome, Introduction, Plan of the day
09:00 am – 10:00 am	Skill Station (Session 1)	• Preparation for Birth

10:00 am – 11:00 am	Skill Station (Session 2)	<ul style="list-style-type: none"> • Routine care, • Initial steps (Include observational care)
11:00 am – 012:45 pm	Skill Station (Session 3)	<ul style="list-style-type: none"> • Brief Ventilation • Prolonged Ventilation with Normal HR • Prolonged Ventilation with Slow HR
012:45 pm – 01:30 pm	LUNCH	
01:30 pm – 02:45 pm	Skill Station (Session 4)	<ul style="list-style-type: none"> • Performance Evaluation Test
02:45 pm – 03:30 pm	Lectures on Administrative aspects	<ul style="list-style-type: none"> • How to conduct Basic NRP Course • Teaching Methodology
03:30 pm – 04:30 pm	Open House	<ul style="list-style-type: none"> • Course Commitment • Suggestions & Feedback
04:30 pm – 05:00 pm	Valedictory	

Instructor Team

1. Dr Gajanan Surewad (Lead instructor)
2. Dr Priyadarshani Moon (Course Coordinator / Instructor)
3. Dr Avinash Bhosale (Instructor)
4. Dr Jagruti Nikam (Instructor)

Qualifications:

- The instructor team comprised highly experienced professionals with extensive backgrounds in neonatal care and medical education.

Objectives:

- To train participants in the principles and practices of neonatal resuscitation.
- To develop participants' teaching and facilitation skills for NRP.
- To ensure participants are prepared to train other healthcare providers in neonatal resuscitation.

Principal
Godavari College of Nursing
Jalgaon

Participants- Number of Participants:

- 31 healthcare professionals like pediatrician, nursing faculties, anesthetics, attended the course.

Backgrounds:

- Participants included pediatricians, neonatologists, nurses, respiratory therapists, and other healthcare providers involved in neonatal care.

Course Content

Topics Covered:

- Principles of neonatal resuscitation.
- Initial steps of newborn care.
- Positive pressure ventilation.
- Chest compression and medications.
- Endotracheal incubation.
- Team dynamics and effective communication.
- Simulation-based training and debriefing techniques.

Hands-on Training:

- Participants engaged in various practical sessions using neonatal manikins.
- Scenarios included resuscitation of a term newborn, management of a preterm newborn, and complex resuscitation situations.

Methods of Instruction:

- Combination of lectures, practical demonstrations, interactive discussions, and simulation-based training.

Assessment Methods:

- Pre-course knowledge assessment.
- Practical skills assessment during hands-on sessions.

- Post-course knowledge and skills evaluation.

Feedback:

- Participants provided feedback through evaluation forms.
- Overall positive response with specific commendations for the practical sessions and interactive teaching methods.

Outcomes and Achievements

Key Takeaways:

- Enhanced understanding of neonatal resuscitation protocols.
- Improved skills in performing and teaching resuscitation techniques.
- Participants reported increased confidence in managing neonatal emergencies.

Certification:

- Participants received certificates of completion, qualifying them as NRP Basic Instructors.

Recommendations

Suggestions for Improvement:

- Increase the duration of hands-on sessions for more practice time.
- Incorporate additional advanced resuscitation techniques in future courses.
- Offer follow-up workshops for continued skill development.

Future Opportunities:

- Advanced NRP instructor courses.
- Specialized training sessions focusing on high-risk neonatal populations.

Conclusion

The NRP TOT Basic Instructor Course held on June 30, 2024, was a significant success. The course effectively equipped healthcare professionals with the necessary

skills and knowledge to train others in neonatal resuscitation. The positive feedback from participants highlighted the importance of such training in enhancing

Aim of Activity:

The activity aimed to bridge the gap between theoretical knowledge and practical application by providing a simulated learning environment. It sought to create a safe space for the students to practice medical surgical skills, receive expert guidance, and gain confidence in their abilities.

Objective of simulation based workshop:

The primary objective of the training program was to equip the nursing students with the necessary knowledge and skills to effectively handle emergency patient it aimed to:

- Enhance their knowledge and understanding of ACLS/BLS/PALS
- Familiarize them with the correct techniques and procedures for various emergency procedures.
- Provide them with ample opportunities for practice and skill development.
- Foster their critical thinking and decision-making abilities in Mega code scenario based practice scenarios.

Overview

The Medical Surgical Nursing Department organizes two days' workshop on ACLS/BLS/PLS program for Diploma, Graduates and Postgraduate students. Total 100 students and 50 faculties were enrolled for this workshop. It was a comprehensive initiative to improve their skill during emergency management. The program focused on providing hands-on experience in a simulated environment, allowing students to develop competence and confidence in performing various medical surgical lifesaving procedures such as cardiopulmonary resuscitation, advance cardiac life support and paediatric life support.

The training program aimed to bridge the gap between theoretical knowledge and practical application by offering a realistic and controlled learning environment. By engaging in simulated scenarios, students were able to gain practical experience without compromising patient safety.

The program was initiate with welcome address of organizing Secretary Mrs. Manorama Kashyap Prof.vishakha Ganvir was the chairperson of the programme. There after it proceeds with the lighting the lamp by dignitaries of workshop. Latter on it; felicitation of resource person Mr. Swapnil Rahane certified (AHA Instructor) Parul institute of nursing.

Vadodara, Gujarat. And Mr Balram Katahliya certified (AIIA Instructor) Parul institute of Nursing, Vadodara, Gujarat by organizing secretary Mrs. Manorama Kashayp and workshop facilitator Ms. Rashmi Tembhurne respectively.

DAY 1 (03/10/2023) - Workshop started with knowledge based Pre-test questionnaire latter on proceeds with lecture on basic life support and use of automated external defibrillator (AED) along with cardiac Arrest Algorithm Practice. Both resources Person gave hands on practice for each topic to every student and faculty to give their relevance in nursing practice and their significance in patient care.

By participating in the program, the students had the opportunity to enhance their understanding of medical surgical concepts and principles. They learned about the post cardiac care, paediatric life support, Airways Management, (AMBU BAG MASK) and the day one ends with debriefing session.

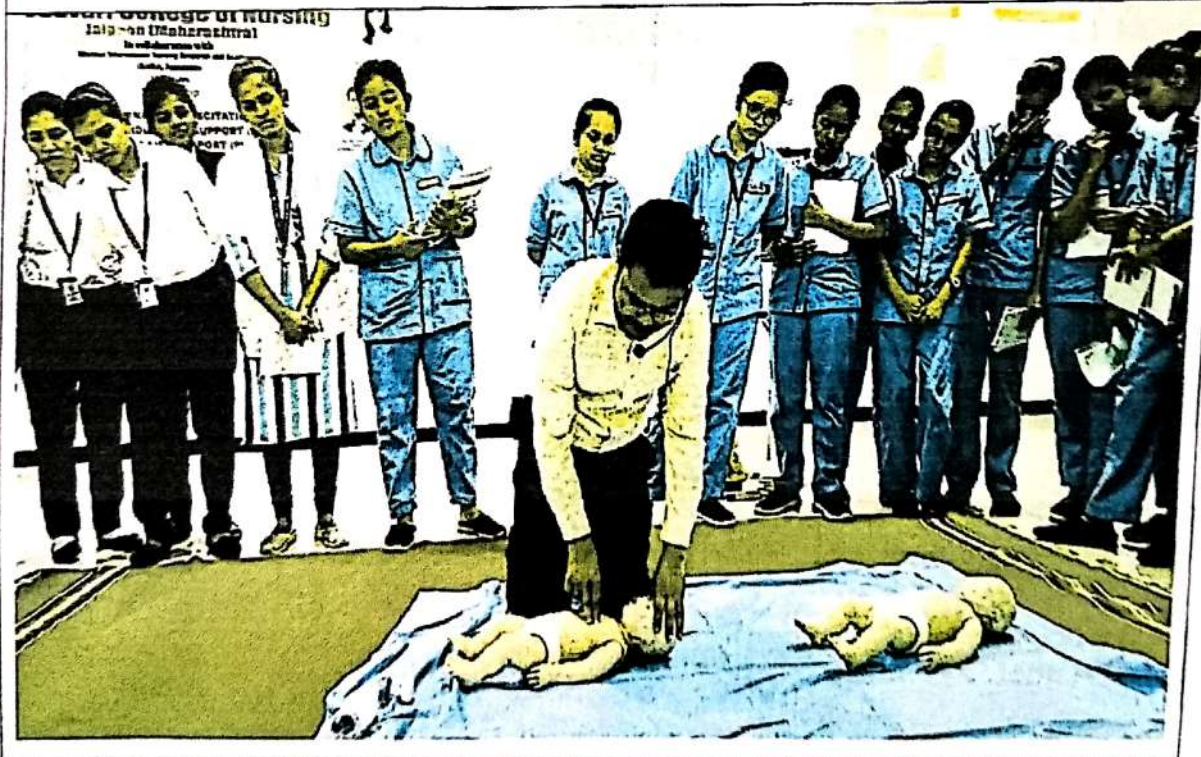

DAY 2 (04/10/2023) the program schedule was carefully planned to include both theoretical lectures and practical sessions. The second day starts with the session on post cardiac care; tachycardia and Bradycardia algorithm Practice along with management chocking and reversible causes of cardiac arrest. Latter on session proceeds with Mega code Scenario based practice. The practical sessions included live demonstrations and hands-on practice, allowing the students to apply their knowledge in a simulated setting.

Day 2 ends with post-test and valedictory function.

At the end workshop vote of thanks was delivered Marry Faustina.

TRAINING PROGRAMME FOR
TEACHERS ON FIRST AID

- **DATE:**03/06/2024
- **TIME:**09.00 AM TO 12.00PM
- **VENUE:** Godavari English Medium CBSC School, Jalgaon
- **INTRODUCTION:**

Godavari College of Nursing, Jalgaon, in collaboration with Godavari English Medium CBSC School, Jalgaon, organized a training program focusing on equipping teachers with essential first aid skills. This collaborative effort between the Fundamental of Nursing and Community Health Nursing Department of Godavari College of Nursing and the school aimed to enhance the safety and well-being of students by empowering educators with the knowledge and tools to respond effectively to medical emergencies.

- **AGENDA:**

SR. NO.	TIME	TOPICS
1	(9:00 AM TO 9:15 AM)	Introduction
2	(9:15 AM TO 9:45 AM)	Overview of First Aid Principles
3	(9:45 AM TO 10:15 AM)	Basic Life Support Techniques
4	(10:15 AM TO 10:45 AM)	Management of Common Injuries
5	(10:45 AM TO 11:15 AM)	Emergency Response Planning
6	(11:15 AM TO 11:45 AM)	Practical Demonstrations and Hands on Training
7	(11:45 AM TO 12:00 PM)	Q&A Session and Conclusion

- **OBJECTIVES:**

- To provide teachers with a comprehensive understanding of first aid principles and practices.
- To train educators in basic life support techniques, including CPR and the use of AEDs.
- To familiarize participants with the management of common injuries encountered in school settings.
- To facilitate the development of emergency response plans tailored to the school environment.
- To offer practical demonstrations and hands-on training to enhance participants' proficiency in administering first aid.

- **DESCRIPTION OF PROGRAM:**

The training program commenced with a warm welcome extended to all participants, setting a positive tone for the session. An introductory overview highlighted the importance of first aid training for teachers and outlined the objectives and agenda for the day.

Subsequently, participants engaged in sessions covering various aspects of first aid, beginning with an overview of fundamental principles. Basic life support techniques, including CPR and AED usage, were demonstrated and practiced to ensure participants felt confident in their ability to respond to cardiac emergencies.

The program also addressed the management of common injuries such as wounds, fractures, and burns, equipping teachers with the skills to provide immediate and appropriate care to injured students.

Emergency response planning was emphasized to underscore the importance of preparedness and coordination in managing medical emergencies within the school setting. Practical demonstrations and hands-on training sessions allowed participants to apply their newly acquired skills in simulated emergency scenarios, enhancing retention and proficiency.

- **CONCLUSION:**

The training program on first aid for teachers conducted by Godavari College of Nursing, Jalgaon, in collaboration with Godavari English Medium CBSC School, Jalgaon, was a resounding success. Through this collaborative effort, educators were empowered with the knowledge and skills necessary to respond effectively to medical emergencies, thereby enhancing the safety and well-being of students within the school community.
