

# REPORT ON

## “NATIONAL POLLUTION CONTROL DAY”

**GODAVARI  
COLLEGE OF NURSING**  
Run by Godavari Foundation | Affiliated by MUHS Nashik  
Accredited by NAAC

**Department of Community  
Health Nursing**

**National  
Pollution  
Control Day**

**02/12/2023**

**09.00 am**

**Nasirabad**

## **INTRODUCTION:**

National Pollution Control Day is celebrated to raise awareness and promote actions towards controlling and preventing environmental pollution. This day serves as a reminder of the critical need for collective efforts to mitigate pollution levels and safeguard the environment for present and future generations. Promote tree planting and green spaces to enhance air quality and absorb pollutants. Advocate for the reduction of single-use plastics and the promotion of recycling to combat plastic pollution.

### **AIMS:**

- The primary aim of celebrating National Pollution Control Day at a Primary Health Centre is to create awareness and foster a sense of responsibility among the local community regarding the impact of pollution on health.
- This celebration aims to empower individuals with knowledge and encourage practices that contribute to a healthier and pollution-free environment.

### **MAIN OBJECTIVES:**

- Raise awareness through health education about the link between pollution and common health issues, emphasizing the importance of pollution control for overall well-being.
- Encourage the adoption of simple yet effective practices, such as waste segregation, proper disposal of medical waste, and maintaining cleanliness in the community.
- Initiate community projects for the creation and maintenance of green areas around the Primary Health Centre, encouraging community involvement.
- Encourage local residents to actively participate in neighborhood clean-up drives and pollution monitoring activities.

The programme was guided by Mrs. Jacinth Dhaya.C.H. Associate professor Cum H.O.D. Community health nursing, G.C.O.N. encourage and all members of community health nursing department throughout the Programme.

The celebration serves as a platform to raise public awareness about the adverse effects of various types of pollution, including air, water, and soil pollution. It helps educate the public about the consequences of pollution on health, ecosystems, and overall well-being.

The celebration encourages community participation in pollution control initiatives. It motivates individuals and local communities to take responsibility for their actions, adopt eco-friendly practices, and actively contribute to reducing pollution in their surroundings.
