GOAL:

This theme explores the interconnected health issues affecting populations worldwide and emphasizes the crucial role nurses play in addressing these challenges. It highlights nurses frontline responders, educators, advocates and change makers in global health systems.

OBJECTIVES:

- 1. Identify major health challenges
- 2. Analyze the impact of social, political and economic factors
- 3. Examine the roles and responsibilities of nurses
- 4. Develop strategies for effective nursing intervention
- 5. Encourage the integration of global health content
- 6. Promote leadership and advocacy skills among nurses
- 7. Facilitate research and knowledge exchange among nurses
- 8. Support the sustainable development goals
